Contact number – 9629029954; Email: kalirathinam.raman@gmail.com

Objective:

To put forth my best abilities, in order to add value to the company, to cope with the emerging trends of the industry and to widen the boundaries of my knowledge.

Core Objective:

- Designing solutions using one or more AWS features, tools, and technologies such as EC2, EBS, Glacier, S3, ELB, Cloud Formation, Cloud Watch, VPC.
- Experience on AWS Security: IAM policies/roles
- Applying the group policies and providing the security in AWS using IAM.
- Configure Elastic Load Balancer (ELB) for distribution incoming application traffic across multiple EC2 instances.
- Created Multifactor Authentication (MFA) for AWS Users in the organizations.
- Proficient knowledge in the application on AWS EC2 AMI Instances.
- Creating VPC and Elastic Load Balancer.
- Knowledge in creation of Elastic map Reduce (EMR), Red shift Cluster, Route 53.
- Migration of the on-premise solutions to Amazon Cloud using EC2, VPC and S3.
- Creating snapshots for quick restoration, as part of redundancy
- Working knowledge on Creation of custom AMI's.
- Working experience in taking snapshots of the EBS Volumes.
- Hands on experience in Configuration of ELB (Elastic Load Balancer)
- Hands on experience in configuration of SNS topics for alerts received from Cloud Watch.
- Managing day to day activity of the cloud environment, supporting development teams with their requirements.

Experience Details:
